CHEESE GRADERS' MEMORANDUM NO. 2

To: CHEESE GRADERS

From: Rob R. Slocum, Dairy & Poultry Branch - A.M.A.

Subject: Type of Cheese Box to be Given on Cheese Grading Certificate Covering Product Graded for Sale to Federal Surplus Commodities Corporation.

Announcement FSC-415, dated February 2, 1942, and covering the purchase of American cheese by the Federal Surplus Commodities Corporation, states among other things that the offer to sell cheese to the Corporation must include a statement of the type or types of containers in which the cheese will be packed.

We are advised that the F.S.C.C. auditors wish to have the type of cheese box shown on each grading certificate issued. All graders are, therefore, requested to state on each certificate which they issue the type of cheese box or the types of cheese boxes, in the event that more than one is used, in which the cheese covered by the certificate is packed. Please see that this is done immediately.
